PERTRONIC INDUSTRIES LTD
PMB125 Surface Mount Box Installation Note

Product Overview:

The purpose of this product is to mount an analogue addressable module on a surface such as a wall.
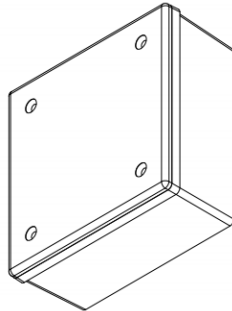

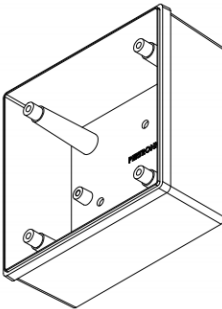

Instructions:

1. Drill a hole in the bottom or back of the surface mounting box as required for cabling or conduit.
2. Secure the surface mount box to the wall with screws and plastic anchors (provided) or to a junction box.
3. Wire the module according to the module instructions.
4. Assemble the module to the surface mount box with the short screws provided.
5. Fasten the cover plate to the module, using the screws provided with the module.
6. Pertronic products PSTIF (Strobe Interface) and AAFCRLY (Fan Control Relay) also can be mounted into this mounting box with Lid.

Specifications:

Mounting Box Dimensions	125 x 125 x 51.5 mm	H x W x D mm
